Professional Summary

Highly skilled and reliable Electrician with 6 years of experience delivering comprehensive electrical services across diverse residential and commercial environments. Proficient in executing all phases of electrical installations, including house wiring, panel, and switchboard fitting, coupled with expert capabilities in fault diagnosis, maintenance, and repair work. Adept at interpreting complex electrical layouts, operating advanced testing equipment, and strictly adhering to industry safety standards to ensure quality and compliant installations. Proven ability to collaborate effectively with contractors on major construction projects while also independently managing critical electrical maintenance tasks, demonstrating potential for supervising small teams when required.

Work Experience

I have been working as an electrician for the past 6 years in residential and commercial buildings. My responsibilities include house wiring, electrical panel installation, switchboard fitting, fault diagnosis, maintenance, and repair work. I am experienced in reading electrical layouts, using testing equipment, and ensuring safety standards during installations. I have worked with contractors on multiple construction projects and can independently handle electrical maintenance tasks. I am reliable, hardworking, and capable of supervising small teams when required.
